*The Matterhorn*

To whom it may concern:

Not because she was a woman, but because of who she was, what she was and her tremendous accomplishments, would I like to recommend Clara Barton for election to the Hall of Fame.

I am sure that you are fully aware of her accomplishments and I do not need to enumerate them.

Thank you for your sincere consideration of bestowing this great honor not only on her but the profession to which she devoted her life.

Respectfully

*Elise Stern*
